Project Title: *The Love Witch*

I would like to make a single-page continuous scroll microsite that incorporates full-page screen grabs from the 2016 American comedy horror film *The Love Witch*. The visuals should be dark, stormy, and colorful to match the promotional poster.

Sections:

1. Intro
2. Plot
3. Cast
4. Themes
5. Sources (this page will list sources, including the Wikipedia page and sources for photography, and any other credits that need to be proven)
